Selling of the Church Bus

After much consideration, the Property & Grounds Committee, in consultation with the Deacons, has determined that it is in the best interest of the church to sell the church bus. The bus has served us well; however, over the past several years, usage has diminished to the point that it is no longer feasible to maintain and insure the vehicle. In addition, the number of individuals with the required chauffeur's license and availability to drive the bus has significantly declined. The Property & Grounds Committee is currently assessing the transportation needs of the church to determine the best path forward for the future. Once this assessment is complete, a recommendation will be presented to the church for comment and discussion.
